Item 1.01 Entry into a Material Definitive Agreement.

On January 25, 2019, Boise Cascade Company (the "Company") closed its previously disclosed purchase of a group annuity contract (the "Contract") from The Prudential Insurance Company of America ("Prudential"). The purchase was made pursuant to the terms of the commitment letter, dated as of August 3, 2018, by and between the Company and Prudential. Pursuant to the Contract, the Company transferred to Prudential the future benefit obligations and annuity administration for certain retirees (or their beneficiaries) in payout status as of July 1, 2018, that participate in the Company's pension plan. Under the Contract, Prudential agreed to irrevocably make the annuity payments due thereunder and not seek to cancel or rescind the Contract. Prudential commenced benefit payments to these retirees on October 1, 2018. The Contract is deemed effective August 10, 2018, which is the date on which the Company paid the total premium amount to Prudential. The total premium paid from plan assets to Prudential, net of a final premium adjustment refunded to the plan upon closing of the Contract, was approximately \$124 million. The Contract will terminate on the date that no further annuity payments are due under the Contract.

The foregoing description of the Contract does not purport to be complete and is qualified in its entirety by the provisions of the Contract, which will be filed by the Company as an exhibit to its Annual Report on Form 10-K for the year ended December 31, 2018.

Item 2.05 Costs Associated with Exit or Disposal Activities.

With the previously announced permanent curtailment of the Company's Roxboro, NC, laminated veneer lumber production and recent capital investment commitments at its Chester, SC, Florien, LA, and Oakdale, LA, facilities aimed at increasing veneer production, the Company determined in the fourth quarter 2018 that it would divest of its Moncure, NC, plywood operation. On January 25, 2019, the Company entered into an agreement with an affiliate of Southern Veneer Products ("Southern") to sell its plywood operations in Moncure, NC.

As a result of the pending sale, the Company expects to record pre-tax charges of approximately \$25 million in fourth quarter 2018, most of which will be non-cash write-downs of the carrying value of the Moncure facility and the associated inventories, as well as accrual of anticipated expenses related to the sale. The sale is expected to be complete in first quarter 2019, contingent upon the results of the due diligence process.

The press release announcing the planned sale is furnished hereto as Exhibit 99.1.

Also included in the Company's fourth quarter results will be approximately \$58 million of charges related to the previously disclosed permanent curtailment of laminated veneer lumber (LVL) production at its Roxboro, NC facility. The substantial majority of the charges were non-cash charges to fully depreciate the curtailed LVL production assets.

Cautionary Statement Regarding Forward-Looking Statements

Certain statements in this Current Report on Form 8-K are or may be considered forward-looking statements. These statements reflect Company management's current views and expectations and are subject to risks and uncertainties that could cause actual results to differ materially from those expressed or implied in these statements. Factors which could cause actual results to differ include but are not limited to (i) the amount of sale-related charges; (ii) the timing of completion of due diligence procedures and transaction closing; (iii) the failure or inability to manufacture or acquire the veneer needed to meet the future needs of the Company's engineered wood products manufacturing facilities, and (iv) other factors that can be found in the Company's filings with the Securities and Exchange Commission. The Company undertakes no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

Boise Cascade enters into agreement to sell North Carolina plywood mill to Southern Veneer Products

BOISE, Idaho - Boise Cascade Company (Boise Cascade) (NYSE: BCC) has entered into an agreement with an affiliate of Southern Veneer Products (Southern Veneer) to sell its plywood operations in Moncure, NC. Founded in 1998, Southern Veneer, located in Fitzgerald, GA, is a privately-held manufacturer of high-quality plywood, veneer and wood by-products.

“Moncure primarily supplies hardwood plywood to the furniture panel sector. The acquisition of this facility more closely aligns with Southern Veneer’s business strategy. We believe this sale provides the best long-term option for continuing to serve the furniture market and sustain employment at the mill into the future,” said Mike Brown, executive vice president, Wood Products division. “Southern has been a proven and trusted veneer supplier for Boise Cascade for more than 10 years. They have a committed ownership and management team with the best interests of the customers, employees and the community at its core.”

Approximately 150 employees are employed by the facility.

“We are excited to enter into this agreement with Boise Cascade as the addition of the Moncure facility is a continuation of our plan to expand our geographic presence and build a diversified portfolio of world class assets,” said Ken Adams, president of Southern Veneer. “We intend to invest in equipment upgrades to make full use of the production capacity at the plant. We look forward to welcoming the employees onto our team and working with the plant’s suppliers and customers.”

“As we conclude optimization of our veneer sourcing strategy and with the capital investments we’ve committed to our Chester, Florian and Oakdale facilities, we believe there is ample veneer capacity internally and externally to meet the future needs of our EWP customers,” said Brown.

The sale is contingent upon the results of the due diligence process, which is expected to be complete in the first quarter. Boise Cascade will record a pre-tax charge of approximately \$25 million in the fourth quarter of 2018 as a result of writing down the carrying value of the Moncure facility and the associated inventories, as well as accruing anticipated expenses related to the sale to Southern.
